

GATE VALVE

Blade NP 10

Art. 147.0005

Art. 147.0005

Sec.Art. 147.0005

Execution: cast iron body, bronze or stainless steel 304/316 - stainless steel blade AISI 304/316 - steel column wire drawn and plated carbon - stainless steel stem - cast iron stuffing box - blade seal gaskets viton O-Ring.

Diameters: ND 50 ÷ ND 600
Max pressure 10 bar

Employments: conveyance of thick substances plants - purification plants - paper factories.

Characteristics: narrow length - straight passage - full draining - no pockets in the body - moving shaft and fixed handwheel.

On request: lever control - electric motorization - installation of pneumatic actuator - passing blade - with inspection door.
